

Taylor Howell

CONTACT INFORMATION	Durand 032 Stanford University CA, 94305 USA	thowell@stanford.edu thowell.github.io +1 801 300 9431
------------------------	--	--

EDUCATION	Ph.D. Candidate, Mechanical Engineering , Stanford University Qualifying Exams (complete): Automatic Controls, Robotics, Research Advisor: Zachary Manchester Sept. 2017 - present
	M.S., Mechanical Engineering , Stanford University Automatic Controls, Robotics June 2019
	B.S., Mechanical Engineering , University of Utah Summa Cum Laude Capstone Project: Wireless Power for Aerial Robots Dec. 2016

RESEARCH	Research Assistant , Robotic Exploration Lab, Stanford University My research is focused on developing fast optimization tools for motion planning of robotic systems. Currently, I'm working on algorithms for robust feedback motion planning and a fast solver for contact-implicit trajectory optimization. Previously, I was co-leading development of <code>TrajectoryOptimization.jl</code> , an open-source Julia package for solving constrained trajectory optimization problems. May 2018–Present
	Research Assistant , Telerobotics Laboratory, University of Utah I devised and implemented a control scheme to sort swarms of microrobots using rotating uniform magnetic fields for minimally invasive medical applications. This work included: applied physics, simulation, nonlinear optimization, fabrication of a scaled microrobot swarm, and writing C++ code to control a tri-axial Helmholtz-coil system. Oct. 2015 - Dec. 2016
	Research Assistant , Utah Center of Excellence for Biomedical Microfluidics, University of Utah I designed and built a forty-eight-syringe pump for a medical microfluidic system, developed standard operating procedures for a high-throughput drug screening and cytotoxicity evaluation system, and performed statistical analysis for ovarian-cancer cell experiments. Sept. 2014 - Oct. 2015

EXPERIENCE	Instructor , GREAT Summer Camp, University of Utah Led a teaching team of three and taught practical robotics and programming skills to elementary school students using the LEGO Mindstorm platform and developed projects and challenges for FLL skills, telerobotics, and kinetic-art themed weeks. Jun. 2017 – Jul. 2017
	Co-founder , Cornaby-Howell LLC I prototyped systems including: a touch-display module with GUI, Arduino C code, a lead-screw system, and syringe attachment modules for precision high-throughput syringe pumps. Designed schematics for patent application. Apr. 2015 – Oct. 2015

Front Desk Clerk, Ramada Limited Draper

Apr. 2013 – Aug. 2013

Manager on duty: checked in and out guests, made reservations, and ran breakfast.

Twisty Puzzle Designer

Aug. 2007 – Jan. 2011

I designed and built twisty puzzles with selling prices ranging from \$25 - \$850. I exhibited my work at the community's premier international event, Dutch Cube Day, in 2008.

SKILLS

Julia, C++, Python, Matlab, R
 L^AT_EX, Git, Linux, Solidworks, ROS, Adobe Premiere Pro, Adobe Illustrator
 Mill, Lathe, Vacuum Forming, Laser Cutting, Mold Making and Casting, Metal Sheet Fabrication

COMMUNITY OUTREACH

Co-organized Social Impact Night event at Stanford to connect social-impact focused students and entrepreneurs (Spring 2019).

Mentored three summer interns at the Telerobotics Laboratory and developed soft robots with potential as catheter tips that will increase insertion distance deep in the brain and other hard-to-reach locations in the body (June 2016 – August 2016).

Science-fair judge for local elementary school (May 2015).

COURSEWORK AT STANFORD

Convex Optimization, Optimal Control, Nonlinear Control, Advanced Software Development, Engineering Design Optimization, State Estimation, Principles of Robotic Autonomy, Introduction to Mechatronics, Linear Dynamical Systems, Introduction to Robotics, Machine Learning, Decision

Making Under Uncertainty, Control Design Techniques, Advanced Robotic Manipulation, Advanced Feedback Control, Introduction to Optimization, Experimental Robotics, Multi-robot Systems

COURSEWORK AT
UNIVERSITY OF
UTAH State Space Control, Design of Experiments, Introduction to Finite Element Method, Programming
for Engineers

FELLOWSHIPS AND SCHOLARSHIPS	Stanford Graduate Fellowship	2017 – 2018
	University of Utah Undergraduate Research Opportunities Program Fellowship	2016
	The Boeing Company Scholarship	2016
	Shirley L. & Kathelyne O. Evans Endowed Scholarship	2016
	Big Ten+ Grad Expo travel scholarship	2016
	University of Utah Presidential Scholarship	2013 – 2016
