EDUCATION	Ph.D. Candidate, Mechanical Engineering , Stanford University Advisor: Zachary Manchester Sept. 2017 - present	
	M.S., Mechanical Engineering , Stanford University Automatic Controls, Robotics June 2019	
	B.S., Mechanical Engineering , University of Utah Summa Cum Laude Dec. 2016	
RESEARCH	Research Assistant , Robotic Exploration Lab, Stanford University My research is focused on developing fast optimization tools for motion planning of robotic systems. Currently, I'm developing a fast solver for contact-implicit trajectory optimization. Previously, I was co-leading development of <code>TrajectoryOptimization.jl</code> , an open-source Julia package for solving constrained trajectory optimization problems. Research Assistant , Telerobotics Laboratory, University of Utah I devised and implemented a control policy to sort swarms of microrobots using rotating uniform magnetic fields for minimally invasive medical applications. This work included: applied physics, simulation, nonlinear optimization, fabrication of a scaled microrobot swarm, and writing C++ code to control a tri-axial Helmholtz-coil system. Research Assistant , Utah Center of Excellence for Biomedical Microfluidics, University of Utah Sept. 2014 - Oct. 2015 I designed and built a forty-eight-syringe pump for a medical microfluidic system, developed standard operating procedures for a high-throughput drug screening and cytotoxicity evaluation system, and performed statistical analysis for ovarian-cancer cell experiments.	May 2018–Present Oct. 2015 - Dec. 2016
EXPERIENCE	Instructor , GREAT Summer Camp, University of Utah Taught practical robotics and programming skills to elementary school students using the LEGO Mindstorm platform and developed projects and challenges for FLL skills, telerobotics, and kinetic-art themed weeks. Co-founder , Cornaby-Howell LLC I prototyped systems including: a touch display module with GUI, Arduino C code, a lead-screw system, and syringe attachment modules for precision high-throughput syringe pumps. Twisty Puzzle Designer I designed and built twisty puzzles with selling prices ranging from \$25 - \$850. I exhibited my work at the community's premier international event, Dutch Cube Day, in 2008.	Jun. 2017 – Jul. 2017 Apr. 2015 – Oct. 2015 Aug. 2007 – Jan. 2011
